

Patrícia Szabó, PhD

Curriculum Vitae – Short Biography

Patrícia Szabó was born on 2 October 1996 in Ajka, Hungary. She completed her secondary education at Imre Bródy Secondary School in Ajka, graduating in 2015 from the advanced English track. She pursued her higher education at the University of Pannonia, where she obtained her **BSc degree in Business Informatics** in 2019, followed by an **MSc degree in Computer Science Engineering** in 2022, specializing in technical healthcare applications. Since 2022, she has been a PhD student at the Doctoral School of Information Science and Technology at the University of Pannonia. She successfully defended her PhD dissertation in September 2025 with **summa cum laude distinction**, completing the degree **one year ahead of the expected graduation time**.

After her BSc studies, she gained extensive **industry experience** in several IT and engineering roles. She worked as an Application Engineer at Soloron 40 Ltd., and as an **IT Engineer** at thyssenkrupp Components Technology Hungary Ltd. in Budapest, where she was involved in application development, software testing, and the design and operation of IT systems and servers.

Alongside her PhD studies, she became actively involved in the **teaching and research activities** of the Department of Electrical Engineering and Information Systems at the University of Pannonia. She teaches courses including Multimedia, Virtual Reality, and Mobile Programming, and has supervised several student theses as well. Between 2023 and 2025 she has also been involved as a **researcher within the Hungarian Research Network**.

Her main research area is **health informatics**, with a particular focus on the application of virtual reality and game development for cognitive development and rehabilitation.

During her BSc studies, she developed a **fine motor rehabilitation application for the National Rehabilitation Center**. During her MSc studies, she created an **educational game for children with type-1 diabetes**. As part of her PhD research, she collaborates with **psychologists and neuropsychologists from Eötvös Loránd University**. In addition, she works together with a speech therapist at **Hospital of Veszprém** on rehabilitation solutions for patients with aphasia, while also exploring the integration of artificial intelligence and virtual reality technologies in rehabilitation systems.

Throughout her studies and research career, she has been actively involved in scientific conferences and international collaborations. In 2024, she received the **womENCourage grant in the field of Responsible Computing for Gender Equality**, which enabled her to present her work at the womENCourage conference in Madrid. Since 2022, she has been an active member of several **COST Action (European Cooperation in Science and Technology)** working groups, where she has also served as a Science Communication Coordinator in one of the networks. These collaborations support the development of international research connections and interdisciplinary knowledge exchange.

Education

Ph.D. in Information Science and Technology

University of Pannonia
2022 – Sept 2025

M.Sc. in Computer Science Engineering

Specialization: Technical Healthcare Applications
2020 – 2022

B.Sc. in Business Informatics Engineering

2015 – 2019

Technical Skills

- C#, Java, PHP, JavaScript, HTML/CSS, SQL
- Git, Azure DevOps Pipelines
- Jira, Confluence
- Unity Engine, Oculus/VR SDKs
- Docker, Podman
- HCI & UX Evaluation: User-centered design, usability testing

PATRICIA SZABO

Academic Positions

2023
-
present

Researcher & Lecturer

University of Pannonia

- Teaching courses:
 - Mobile Programming,
 - Virtual Reality,
 - Applied Multimedia
- Supervising numerous B.Sc. and M.Sc. theses on VR, health tech, mobile and game development.
- Researcher in 3D Virtual and Digital Environments Research Laboratory

2023
-
2025

Researcher

Hungarian Research Network

- In HUN-REN Cognitive Mapping of Decision Support Systems research group

International Projects & Scientific Roles

2022
-

Science Communication Coordinator (2022–2024)

- COST Action CA19104 – a-STEP: Advancing Social Inclusion through Technology and Empowerment

Working Group Member (currently)

- CA23153 – Digital Mental Health for Young People (YouthDMH)
- CA22167 – Participatory Approaches with Older Adults (PAAR-net)
- CA21137 – Ethics in Dementia (EDEM)

Professional Experience

2022

Application Engineer – Soloron 40 Zrt., Budapest

- Docker/Podman containerization, server management
- Azure DevOps & release pipelines, Linux system admin
- Project coordination & Customer assistance

2020
-
2022

IT Engineer – thyssenkrupp Components Technology

- Software development (PHP, HTML/CSS, C#), Jira, Git
- DevOps & Product owner
- Plugin scripting, service desk management, systems admin

2017
-
2019

HR Trainee – Trenkwalder Személyzeti Szolgáltató Kft

- Supported recruitment, contracting, and daily administrative tasks. Gained practical experience in human resources operations within a professional staffing agency.
